ABSTRACT

The purpose of this directory is to provide information regarding the availability of specialized middle level teacher preparation programs. The directory provides information on approximately 240 colleges and universities, listed alphabetically by state. For each of these colleges and universities, the directory: (1) lists the degrees offered; (2) indicates whether the middle level program is a major specialization comparable to an elementary or secondary education major, a program that has been added to an elementary or secondary program to provide dual certification, or a program limited to selected courses not leading to a degree or certification; and (3) gives the name and address of an individual to contact for additional information. A survey form is appended. (BC)

# Directory of Middle Level Teacher Preparation Programs

## National Middle School Association

The major purpose of *Directory of Middle Level Teacher Preparation Programs* is the provision of information regarding the availability of specialized middle level teacher preparation programs. Although the number of such programs is growing, it is often difficult for prospective middle level teachers and practitioners seeking graduate programs to locate institutions which have established these programs. This directory includes information about the nature of programs provided, the levels of these programs, and the names and addresses of persons which can be contacted for additional information. Information about these programs is limited to that reported on the survey forms completed by representatives from each respective institution. National Middle School Association is providing this directory as a service for middle level educators and no endorsement or lack thereof by the Association is intended.

Institutions with specialized middle level teacher preparation programs that are not included in this publication are encouraged to complete Appendix A found at the end of the directory so that they can be included in the next issue. Institutions listed in the directory should also complete the form if changes need to be made in the next issue. The completed form should be sent to:

The *Directory of Middle Level Teacher Preparation Programs* is a project of National Middle School Association's Professional Preparation and Certification Committee and was compiled by C. Kenneth McEwin, Appalachian State University, Boone, North Carolina.

# Institutions With Special Courses/Programs for the Preparation of Middle Level Teachers

This directory contains information about teacher preparation institutions reporting special courses and/or programs for the preparation and continuing education of middle level teachers. Information in this directory is limited to institutions responding to the survey.

## Degree abbreviations are:

U — Undergraduate
M — Masters
S — Specialist (Sixth Year)
D — Doctorate
5th Year — Post Baccalaureate Program

## Type of program indicated by:

*Major Specialization*
A full program, for example comparable to an elementary education or secondary education major.

*Added to Another Program*
A program added to an elementary or secondary one to gain dual certification.

*Special Courses*
Middle level preparation limited to selected special middle level courses not leading to a middle level degree and/or certification.
